---

To Whom it May Concern,

Thank you for your email. I am looking for any records the EPA may have in regards air quality readings taken due to the fire at German Pellets Texas, LLC 498 A. West Lakeshore Dr. Port Arthur, TX 77640. I believe this would include any Air Quality Index Reports, Air Quality Statistics Reports, Values Reports, Hazardous Air Pollutant Reports, and Air Pollutant Emissions. The fire began on April 15, 2017 and smoldered for approximately 52 days thereafter. This would lead me to believe air quality readings or measurements could have been taken and recorded all the way up until June 7, 2017. We represent a company that came in and removed the wood pellets during this fire and are sued on the grounds we made the smoke and air quality worse off. If you have any other idea as to what these records or readings would be called I would like to request those. I have also submitted a request with TCEQ.

Further, I am not requesting any confidential business information. I am also willing to increase the fee commitment to 350 dollars.

Thank you,

Taylor Saris | *Law Clerk*
